WHAT IS ALEXA DROP IN?

ALEXA DROP IN IS A FEATURE OF AMAZON'S ALEXA VOICE SERVICE THAT ALLOWS YOU TO INITIATE AN INSTANT, TWO-WAY AUDIO CONVERSATION WITH ANOTHER ECHO DEVICE. THINK OF IT AS AN INTERNAL INTERCOM SYSTEM FOR YOUR HOME. ONCE ENABLED, YOU CAN SIMPLY SAY, "ALEXA, DROP IN ON [DEVICE NAME]," AND IF THE OTHER ECHO DEVICE ALLOWS IT, THE CONNECTION IS ESTABLISHED ALMOST INSTANTANEOUSLY. THIS DIFFERS FROM A STANDARD VOICE CALL, AS IT BYPASSES THE NEED TO ACCEPT OR ANSWER, CREATING A MORE FLUID AND IMMEDIATE COMMUNICATION EXPERIENCE. IT'S DESIGNED FOR QUICK CHECK-INS, ANNOUNCEMENTS, OR SIMPLY STAYING CONNECTED WITH FAMILY MEMBERS THROUGHOUT YOUR HOME.

THE PRIMARY BENEFIT OF DROP IN IS ITS IMMEDIACY. UNLIKE TRADITIONAL PHONE CALLS THAT REQUIRE DIALING AND WAITING FOR AN ANSWER, DROP IN CREATES A REAL-TIME AUDIO BRIDGE. THIS MAKES IT INCREDIBLY USEFUL FOR FAMILIES WITH MULTIPLE ROOMS OR FLOORS, ALLOWING PARENTS TO QUICKLY CHECK ON CHILDREN, OR FOR COORDINATING HOUSEHOLD ACTIVITIES WITHOUT HAVING TO SHOUT OR PHYSICALLY MOVE BETWEEN SPACES. THE FEATURE IS DESIGNED TO BE SIMPLE TO USE, LEVERAGING NATURAL VOICE COMMANDS.

How to Enable and Configure Drop In

Before you can start using the Drop In feature, it needs to be enabled for your Alexa-enabled devices. This process is managed through the Amazon Alexa mobile app. Both the initiating and receiving Echo devices must have Drop In enabled for the feature to function correctly. It's important to understand the different permission levels available, as this will dictate which devices can initiate a Drop In on yours.

Enabling Drop In in the Alexa App

To enable Drop In, you will need to open the Amazon Alexa app on your smartphone or tablet. Navigate to the Devices section, and then select the specific Echo device you wish to configure. Within the device settings, you will find an option for "Communication" or "Drop In." Tapping on this will present you with options to enable or disable the feature.

When you enable Drop In, you can typically choose the level of access: "On" (allowing anyone in your household and contacts with Drop In enabled to connect) or "My Household" (restricting Drop In to only Echo devices within the same Amazon account/household). For enhanced privacy, selecting "My Household" is generally recommended if you primarily intend to use Drop In for internal communication.

Understanding Household vs. Contacts

Amazon provides distinct options for Drop In permissions. "My Household" is the most restrictive and secure setting, meaning only Echo devices linked to the same Amazon account can Drop In on each other. This is ideal for families living together and wanting a private intercom system. "On" allows anyone who has Drop In enabled on their device and is in your contacts (and you are in theirs) to initiate a Drop In. This can be useful for connecting with trusted friends or family members who are not in your immediate household but have mutual consent and compatible devices.

It is crucial to be aware of these settings, as they directly impact who can communicate with your Echo devices without explicit prior action from your end. Regularly reviewing these permissions can help maintain your desired level of privacy and security.

Dropping In on Specific Echo Devices

Once Drop In is enabled, initiating a connection to a specific Echo device is straightforward. The key is to know the name of the Echo device you wish to contact. Amazon assigns default names like "Living Room Echo" or "Kitchen Echo," but you can rename them in the Alexa app to something more personal or practical, such as "Dad's Office" or "Baby's Room."

The command structure is simple: "Alexa, Drop In on [device name]." For instance, if you want to connect to the Echo in the kitchen and it's named "Kitchen Echo," you would say, "Alexa, Drop In on Kitchen Echo." The other device will then emit a subtle chime and a visual indicator (often a pulsing green light on older models, or a green ring on newer ones) to signify that a Drop In is in progress.

Initiating a Drop In from an Echo Device

TO INITIATE A DROP IN FROM ONE OF YOUR ECHO DEVICES, SIMPLY ACTIVATE ALEXA BY SAYING HER WAKE WORD, FOLLOWED BY THE DROP IN COMMAND. FOR EXAMPLE, IF YOU ARE IN THE BEDROOM AND WANT TO SPEAK TO SOMEONE IN THE LIVING ROOM, AND THE ECHO DEVICE THERE IS NAMED "LIVING ROOM ECHO," YOU WOULD SAY, "ALEXA, DROP IN ON LIVING ROOM ECHO." THE CONNECTION WILL ATTEMPT TO ESTABLISH IMMEDIATELY.

IF THE RECEIVING DEVICE IS AVAILABLE AND HAS DROP IN ENABLED WITH THE CORRECT PERMISSIONS, THE CONNECTION WILL BE MADE. YOU WILL HEAR A BRIEF TONE INDICATING THE CONNECTION HAS BEEN ESTABLISHED, AND THEN YOU CAN BEGIN SPEAKING. THE RECEIVING ECHO DEVICE WILL ALSO PROVIDE AN AUDIBLE NOTIFICATION AND VISUAL CUE TO THE PERSON IN THAT ROOM THAT SOMEONE HAS DROPPED IN.

DROPPING IN ON ALL DEVICES IN A ROOM

FOR CONVENIENCE, ALEXA ALLOWS YOU TO DROP IN ON ALL ECHO DEVICES WITHIN A SPECIFIC ROOM THAT YOU HAVE GROUPED TOGETHER IN THE ALEXA APP. IF YOU HAVE MULTIPLE ECHO DEVICES IN, SAY, THE "UPSTAIRS" GROUP, YOU CAN SAY, "ALEXA, DROP IN ON UPSTAIRS." THIS COMMAND WILL ATTEMPT TO CONNECT TO ALL DEVICES IN THAT ROOM GROUP, ALLOWING YOU TO BROADCAST A MESSAGE OR INITIATE A CONVERSATION WITH ANYONE IN THAT AREA.

THIS FEATURE IS PARTICULARLY USEFUL FOR MAKING GENERAL ANNOUNCEMENTS TO THE HOUSEHOLD, SUCH AS INFORMING EVERYONE THAT DINNER IS READY OR THAT IT'S TIME TO LEAVE. THE SYSTEM WILL THEN RING ON ALL COMPATIBLE DEVICES WITHIN THAT DESIGNATED ROOM GROUP, PROVIDING A QUICK WAY TO REACH MULTIPLE PEOPLE SIMULTANEOUSLY.

USING DROP IN FOR DIFFERENT SCENARIOS

THE VERSATILITY OF ALEXA DROP IN EXTENDS FAR BEYOND SIMPLE INTER-ROOM COMMUNICATION. IT CAN BE A VALUABLE TOOL FOR VARIOUS HOUSEHOLD MANAGEMENT, SECURITY, AND CONVENIENCE TASKS. UNDERSTANDING THESE PRACTICAL APPLICATIONS CAN HELP YOU LEVERAGE THE FEATURE TO ITS FULL POTENTIAL.

HOUSEHOLD COMMUNICATION AND ANNOUNCEMENTS

THE MOST COMMON USE CASE FOR DROP IN IS FOR GENERAL HOUSEHOLD COMMUNICATION. PARENTS CAN QUICKLY CHECK ON CHILDREN WITHOUT HAVING TO INTERRUPT THEIR ACTIVITIES WITH LOUD SHOUTS. YOU CAN ANNOUNCE THAT DINNER IS READY, REMIND TEENAGERS ABOUT CHORES, OR ASK A SPOUSE A QUICK QUESTION WITHOUT NEEDING TO SEARCH FOR THEM. THIS FOSTERS A MORE CONNECTED AND EFFICIENT HOME ENVIRONMENT.

FOR EXAMPLE, YOU MIGHT BE IN THE GARAGE AND WANT TO TELL YOUR FAMILY THAT YOU'RE HEADING OUT. INSTEAD OF YELLING, YOU COULD SAY, "ALEXA, DROP IN ON LIVING ROOM ECHO," AND ONCE CONNECTED, SAY, "HEY EVERYONE, I'M LEAVING NOW!" THIS IS MUCH LESS DISRUPTIVE AND MORE EFFECTIVE.

CHECKING ON FAMILY MEMBERS

DROP IN CAN PROVIDE PEACE OF MIND WHEN YOU'RE AWAY FROM A PARTICULAR PART OF THE HOUSE OR EVEN WHEN YOU'RE OUT AND ABOUT (IF YOU'VE CONFIGURED EXTERNAL DROP IN ACCESS AND HAVE AUTHORIZED CONTACTS). FOR INSTANCE, IF YOU HAVE A BABY OR AN ELDERLY PARENT IN ANOTHER ROOM, YOU CAN USE DROP IN TO QUICKLY CHECK IF THEY NEED ANYTHING WITHOUT ENTERING THE ROOM AND POTENTIALLY DISTURBING THEM. THE TWO-WAY AUDIO ALLOWS FOR IMMEDIATE INTERACTION AND REASSURANCE.

A PARTICULARLY USEFUL APPLICATION IS CHECKING ON YOUNG CHILDREN. IF A CHILD IS PLAYING IN THEIR ROOM AND YOU WANT

TO MAKE SURE THEY'RE OKAY, YOU CAN SIMPLY SAY, "ALEXA, DROP IN ON [CHILD'S ROOM NAME]." YOU CAN THEN HEAR IF THEY ARE PLAYING QUIETLY OR IF THEY NEED ATTENTION.

SECURITY AND MONITORING

WHILE NOT A SUBSTITUTE FOR A DEDICATED SECURITY SYSTEM, DROP IN CAN OFFER A LAYER OF PASSIVE MONITORING. IF YOU HEAR AN UNUSUAL NOISE FROM ANOTHER ROOM, YOU CAN USE DROP IN TO DISCREETLY LISTEN IN AND ASCERTAIN THE SITUATION. THIS CAN BE PARTICULARLY HELPFUL FOR MONITORING PETS OR CHECKING ON THE GENERAL ACTIVITY IN DIFFERENT PARTS OF THE HOUSE.

IMAGINE YOU ARE HOME BUT IN A DIFFERENT PART OF THE HOUSE. IF YOU HEAR A STRANGE THUD FROM UPSTAIRS, YOU CAN USE DROP IN ON THE ECHO DEVICE IN THAT AREA TO HEAR IF EVERYTHING IS ALRIGHT. THIS PROVIDES IMMEDIATE AWARENESS WITHOUT THE NEED TO PHYSICALLY INVESTIGATE INITIALLY.

MANAGING DROP IN PERMISSIONS AND SETTINGS

EFFECTIVE MANAGEMENT OF DROP IN PERMISSIONS IS CRUCIAL FOR BALANCING CONVENIENCE WITH PRIVACY. AMAZON PROVIDES GRANULAR CONTROLS WITHIN THE ALEXA APP, ALLOWING USERS TO CUSTOMIZE HOW AND BY WHOM THEIR ECHO DEVICES CAN BE CONTACTED VIA DROP IN.

ADJUSTING DROP IN SETTINGS FOR INDIVIDUAL DEVICES

WITHIN THE ALEXA APP, YOU CAN INDIVIDUALLY MANAGE THE DROP IN SETTINGS FOR EACH OF YOUR ECHO DEVICES. THIS ALLOWS FOR A TAILORED APPROACH. FOR INSTANCE, YOU MIGHT ENABLE "MY HOUSEHOLD" FOR ALL DEVICES, BUT FOR A SPECIFIC ECHO DEVICE IN A CHILD'S ROOM, YOU MIGHT DISABLE DROP IN ALTOGETHER OR ENSURE IT'S ONLY ACCESSIBLE BY SPECIFIC TRUSTED ADULT DEVICES WITHIN THE HOUSEHOLD.

TO DO THIS, GO TO DEVICES > ECHO & ALEXA > [YOUR DEVICE NAME] > COMMUNICATION. HERE, YOU'LL SEE THE DROP IN OPTION. YOU CAN TOGGLE IT ON OR OFF AND SELECT THE DESIRED PERMISSION LEVEL (ON, MY HOUSEHOLD, OFF).

GRANTING AND REVOKING ACCESS

WHEN YOU ENABLE DROP IN, YOU ARE ESSENTIALLY GRANTING A FORM OF ACCESS TO YOUR DEVICES. IF YOU HAVE DROP IN SET TO "ON," THIS MEANS OTHER ALEXA USERS WHO ARE IN YOUR CONTACTS AND HAVE DROP IN ENABLED CAN INITIATE A CONNECTION. IT'S IMPORTANT TO PERIODICALLY REVIEW YOUR CONTACTS AND ENSURE YOU ARE COMFORTABLE WITH THE LEVEL OF ACCESS GRANTED.

TO REVOKE ACCESS FOR A SPECIFIC CONTACT OR TO GENERALLY RESTRICT WHO CAN DROP IN, YOU WOULD NEED TO MANAGE YOUR ALEXA CONTACTS AND ADJUST THE OVERALL DROP IN SETTING. IF YOU ARE USING THE "MY HOUSEHOLD" SETTING, ACCESS IS INHERENTLY LIMITED TO DEVICES ON YOUR AMAZON ACCOUNT, SIMPLIFYING MANAGEMENT.

TROUBLESHOOTING COMMON DROP IN ISSUES

DESPITE ITS GENERAL RELIABILITY, USERS MAY OCCASIONALLY ENCOUNTER ISSUES WITH THE ALEXA DROP IN FEATURE. UNDERSTANDING COMMON PROBLEMS AND THEIR SOLUTIONS CAN HELP YOU QUICKLY RESOLVE ANY CONNECTIVITY PROBLEMS.

"DEVICE IS NOT RESPONDING" OR "DEVICE IS OFFLINE" ERRORS

THIS IS ONE OF THE MOST FREQUENT ISSUES. IT TYPICALLY INDICATES THAT THE TARGET ECHO DEVICE IS EITHER POWERED OFF, NOT CONNECTED TO WI-FI, OR EXPERIENCING A TEMPORARY NETWORK ISSUE. ENSURE THE ECHO DEVICE YOU ARE TRYING TO REACH IS POWERED ON AND HAS A STABLE INTERNET CONNECTION.

A SIMPLE REBOOT OF THE TARGET ECHO DEVICE CAN OFTEN RESOLVE CONNECTIVITY PROBLEMS. UNPLUG IT FOR 30 SECONDS AND PLUG IT BACK IN. ALSO, CHECK YOUR WI-FI ROUTER TO ENSURE IT'S FUNCTIONING CORRECTLY.

DROP IN NOT CONNECTING OR RINGING

IF YOU CAN'T INITIATE A DROP IN, OR THE RECEIVING DEVICE DOESN'T RING, THERE ARE SEVERAL POTENTIAL CAUSES. FIRST, CONFIRM THAT DROP IN IS ENABLED ON BOTH THE INITIATING AND RECEIVING DEVICES, AND THAT THE PERMISSION SETTINGS ARE CORRECTLY CONFIGURED (E.G., "MY HOUSEHOLD" OR "ON").

VERIFY THAT BOTH DEVICES ARE REGISTERED TO THE SAME AMAZON ACCOUNT OR THAT THE CONTACTS ARE CORRECTLY SET UP IF YOU ARE TRYING TO DROP IN ON SOMEONE OUTSIDE YOUR HOUSEHOLD. SOMETIMES, SIMPLY RESTARTING THE ALEXA APP CAN ALSO RESOLVE TEMPORARY GLITCHES.

POOR AUDIO QUALITY

IF YOU CAN CONNECT VIA DROP IN BUT EXPERIENCE POOR AUDIO QUALITY, SUCH AS STATIC, DROPPED AUDIO, OR MUFFLED VOICES, IT'S OFTEN RELATED TO NETWORK PERFORMANCE. BOTH DEVICES NEED A STABLE AND SUFFICIENTLY FAST INTERNET CONNECTION FOR CLEAR AUDIO STREAMING.

ENSURE YOUR WI-FI SIGNAL IS STRONG IN THE LOCATIONS OF BOTH ECHO DEVICES. YOU MIGHT CONSIDER MOVING THE DEVICES CLOSER TO YOUR ROUTER OR USING A WI-FI EXTENDER. ADDITIONALLY, CHECK FOR ANY BACKGROUND APPLICATIONS ON YOUR MOBILE DEVICE THAT MIGHT BE CONSUMING BANDWIDTH IF YOU ARE INITIATING THE DROP IN FROM THE ALEXA APP.

PRIVACY AND SECURITY CONSIDERATIONS

WHILE ALEXA DROP IN OFFERS REMARKABLE CONVENIENCE, IT'S ESSENTIAL TO BE AWARE OF THE PRIVACY AND SECURITY IMPLICATIONS. AMAZON HAS IMPLEMENTED VARIOUS FEATURES TO ENSURE USER CONTROL AND DATA PROTECTION, BUT UNDERSTANDING THESE IS KEY TO USING THE FEATURE RESPONSIBLY.

UNDERSTANDING THE VISUAL AND AUDIBLE CUES

WHEN A DROP IN IS INITIATED, THE RECEIVING ECHO DEVICE PROVIDES CLEAR INDICATORS. THIS INCLUDES AN AUDIBLE CHIME AND A VISUAL CUE (SUCH AS A PULSING GREEN LIGHT ON OLDER DEVICES OR A GREEN RING ON NEWER ONES). THIS IS DESIGNED TO INFORM THE OCCUPANTS OF THE ROOM THAT SOMEONE HAS INITIATED A COMMUNICATION, ALLOWING THEM TO DECIDE WHETHER TO ENGAGE OR DECLINE THE CONNECTION IMPLICITLY BY MOVING AWAY OR NOT SPEAKING.

SIMILARLY, WHEN YOU INITIATE A DROP IN, YOU WILL SEE A VISUAL CUE ON YOUR ALEXA APP OR HEAR AN AUDIBLE TONE ONCE THE CONNECTION IS ESTABLISHED. THIS TRANSPARENCY ENSURES THAT BOTH PARTIES ARE AWARE OF THE ACTIVE COMMUNICATION LINK.

How to End a Drop In Session

Ending a Drop In session is as simple as ending a regular voice call. To disconnect, you can simply say, "ALEXA, HANG UP" or "ALEXA, END DROP IN." If you are using the Alexa app, you can also tap the "END CALL" button. The connection will then be terminated for both parties.

It's important to remember that both participants can end the Drop In session at any time. This provides a straightforward way to regain privacy once the communication is complete.

Best Practices for Secure Drop In Usage

To ensure secure and private use of the Drop In feature, adhere to these best practices. Always enable Drop In with the "My Household" setting if your primary use is within your home. This limits access to only devices linked to your Amazon account. If you choose to enable Drop In for contacts, regularly review your Alexa contacts and remove anyone you no longer wish to have this access.

Avoid enabling Drop In on devices in highly private areas if you have concerns. Regularly update your Alexa app and device firmware to ensure you have the latest security patches. By being mindful of these settings and practices, you can enjoy the benefits of Drop In while maintaining your privacy.

FAQ

Q: Can I Drop In on an Echo device that is not in my home network?

A: Yes, with the correct settings and configurations, you can Drop In on Echo devices outside your home network. This typically involves ensuring that Drop In is enabled for contacts and that the other user has also enabled it and has your contact information. You can initiate a Drop In from the Alexa app on your smartphone from anywhere with an internet connection, provided both devices meet the criteria.

Q: What happens if the person I'm trying to Drop In on is not home?

A: If the Echo device you are trying to Drop In on is offline, powered off, or not connected to the internet, Alexa will inform you that the device is not responding. If the device is online but Drop In is disabled or configured for "My Household" only and you are not part of that household, you will also receive a notification that the connection cannot be made.

Q: Can I use Drop In to video call with Echo Show devices?

A: Yes, if you are using an Echo Show device, the Drop In feature also supports video calls. When you Drop In on an Echo Show, the video will automatically activate on the screen, allowing for face-to-face communication. Similarly, if someone Drops In on your Echo Show, you will see their video feed if they are using a compatible device.

Q: Is there a limit to how long a Drop In session can last?

A: There isn't a strict, enforced time limit on how long a Drop In session can last in terms of duration. However, like any communication session, it's generally intended for shorter, more immediate conversations. If a Drop In session remains inactive for an extended period, it may automatically disconnect due to network timeouts or inactivity.

Q: CAN I MUTE MY ECHO DEVICE DURING A DROP IN?

A: YES, YOU CAN MUTE YOUR ECHO DEVICE DURING A DROP IN SESSION. IF SOMEONE HAS DROPPED IN ON YOUR DEVICE, YOU CAN PRESS THE MUTE BUTTON ON TOP OF THE ECHO DEVICE. THIS WILL MUTE THE MICROPHONE, PREVENTING YOUR VOICE FROM BEING HEARD BY THE PERSON WHO INITIATED THE DROP IN. THE CONNECTION WILL REMAIN ACTIVE, BUT AUDIO WILL BE ONE-WAY FROM THEIR SIDE.

Q: HOW DO I KNOW IF SOMEONE HAS DROPPED IN ON MY ECHO DEVICE?

A: WHEN SOMEONE INITIATES A DROP IN ON YOUR ECHO DEVICE, IT WILL MAKE AN AUDIBLE CHIME AND A VISUAL INDICATOR WILL APPEAR. ON OLDER ECHO DEVICES, THIS IS TYPICALLY A PULSING GREEN LIGHT. ON NEWER ECHO SHOW DEVICES, THE SCREEN WILL ILLUMINATE WITH A GREEN RING OR A VIDEO FEED, INDICATING AN ACTIVE DROP IN SESSION.

Q: CAN I BLOCK SPECIFIC CONTACTS FROM DROPPING IN ON MY ECHO DEVICES?

A: WHILE THERE ISN'T A DIRECT "BLOCK CONTACT" FEATURE SPECIFICALLY FOR DROP IN, YOU CAN CONTROL WHO CAN DROP IN BY MANAGING YOUR DROP IN PERMISSIONS. IF YOU SET DROP IN TO "MY HOUSEHOLD," ONLY DEVICES WITHIN YOUR AMAZON ACCOUNT CAN CONNECT. IF YOU HAVE IT SET TO "ON," YOU WOULD NEED TO MANAGE YOUR ALEXA CONTACTS AND ENSURE ONLY TRUSTED INDIVIDUALS ARE IN YOUR CONTACT LIST WITH DROP IN ENABLED. REMOVING SOMEONE FROM YOUR ALEXA CONTACTS WILL PREVENT THEM FROM INITIATING A DROP IN.

alexa drop in on a specific echo: Exploring AI Implications on Law, Governance, and Industry Chakraborty, Swati, 2025-03-26 The evolution of artificial intelligence (AI) reshapes modern society, presenting complex challenges and opportunities across law, governance, and industry. As AI systems are integrated into decision-making processes, they challenge traditional frameworks of accountability, fairness, and transparency. In law, questions about liability, privacy, and human rights take on new meanings as AI technologies are used to automate legal analysis, predict outcomes, and assist in judicial decision-making. In governance, AI has the potential to enhance public administration through efficient systems, and raises concerns about surveillance, bias, and the erosion of civil liberties. Industries are witnessing transformative shifts as AI drives innovation, optimizes operations, and redefines workforce dynamics, introducing new ethical dilemmas and regulatory gaps. As these technologies advance, it is essential to understand their broader societal impacts and develop frameworks that ensure they are harnessed in beneficial ways. Exploring AI Implications on Law, Governance, and Industry examines the integration of intelligent technologies into business and government sectors. It offers solutions to address challenges in ethics, social justice, and civil rights. This book covers topics such as business strategy, environmental science, and digital technology, and is a useful resource for computer engineers, policymakers, business owners, academicians, researchers, and scientists.

alexa drop in on a specific echo: My Life as a Kitchen Witch Red Tash, 2021-07-02 A short non-fiction book about an accidental kitchen witch and the spells she has concocted for her life at home! His face was red, his mouth a sneer. I don't remember specifically what the fight was about, but I do remember one thing he said. Angry, grounded, and lashing out, my son reached deep into his bag of insults and produced: “You're a witch, Mom!” A look of triumph twinkled in his eye. What a sick burn. I was supposed to be hurt, I'm sure. Instead, I laughed. “You're going to have to try harder than that.” As he seethed, I tried not to smile. “A witch is a wise woman. She's crafty and learned. She's seen a lot of things, and not much scares her. Yes, son. Your mom is definitely a witch.” I never thought I'd say that. Ever. What a wonderful book! Between the recommendations, the recipes, the advice, and the laughs, MY LIFE AS A KITCHEN WITCH left me magically refreshed. If you need to show your self some care without neglecting you responsibilities and loved ones, you need this book. ~ reviewer Marian A. Creative and insightful. A fantastic reminder to not be so hard on myself while still striving for unlimited potential. Can't wait to try the spells. Especially Bacon Love Spell. ~ reviewer Michelle F.

otherworldly qualities in everyday technologies Daragh Byrne, Dan Lockton, Matthew Cruz, Christi Danner, Karen Escarcha, Katherine Giesa, Meijie Hu, Yiwei Huang, Miranda Luong, Anuprita Ranade, Gordon Robertson, Elizabeth Wang, Lisa (Yip Yan) Yeung, Catherine Yochum, 2021-08-31 Spooky Technology explores our understanding of the invisible technologies in our everyday lives, from objects with 'intelligence' to systems in our homes that talk to us (and each other). The book is an inventory of spooky technologies, compiled by Carnegie Mellon students reviewing work across art, design, HCI, psychology, human factors research, and other fields, that has been done in this field, or adjacent to it, both historically and more recently, with commentary, essays, and interviews with creators and artists. We often hear that the technologies in our everyday lives would appear to be 'magic' and potentially terrifying to people in the past—instantaneous communication with people all over the world, access to a vast, ever-growing resource of human knowledge right there in the palm of our hand, objects with 'intelligence' that can sense and talk to us (and each other). But rarely are these 'otherworldly' dimensions of technologies explored in more detail. There is an often unspoken presumption that the march of progress will inevitably mean we all adopt new practices, and incorporate new products and new ways of doing things into our lives—all cities will become smart cities; all homes will become smart homes. But these systems have become omnipresent without our necessarily understanding them. They are not just black boxes, but invisible: entities in our homes and everyday lives which work through hidden flows of data, unknown agendas, imaginary clouds, mysterious sets of rules which we perhaps dismiss as 'algorithms' or even 'AI' without really understanding what that means. On some level, the superstitions and sense of wonder, and ways of relating to the unknown and the supernatural (deities, spirits, ghosts) which humanity has felt in every culture throughout history have not gone away, but started to become transferred and transmuted into new forms.

Nalepa, 2023-10-18 Artificial intelligence, or AI, now affects the day-to-day life of almost everyone on the planet, and continues to be a perennial hot topic in the news. This book presents the proceedings of ECAI 2023, the 26th European Conference on Artificial Intelligence, and of PAIS 2023, the 12th Conference on Prestigious Applications of Intelligent Systems, held from 30 September to 4 October 2023 and on 3 October 2023 respectively in Kraków, Poland. Since 1974, ECAI has been the premier venue for presenting AI research in Europe, and this annual conference has become the place for researchers and practitioners of AI to discuss the latest trends and challenges in all subfields of AI, and to demonstrate innovative applications and uses of advanced AI technology. ECAI 2023 received 1896 submissions – a record number – of which 1691 were retained for review, ultimately resulting in an acceptance rate of 23%. The 390 papers included here, cover topics including machine learning, natural language processing, multi agent systems, and vision and knowledge representation and reasoning. PAIS 2023 received 17 submissions, of which 10 were accepted after a rigorous review process. Those 10 papers cover topics ranging from fostering better working environments, behavior modeling and citizen science to large language models and neuro-symbolic applications, and are also included here. Presenting a comprehensive overview of current research and developments in AI, the book will be of interest to all those working in the field.

Until just a few years ago, turning a light on and off with a clap was about as clever as technology got. Today, almost anything can be connected to the internet, and with this connection comes the ability to turn your bedroom lights off from another country, tell your thermostat to create a weather-appropriate lighting scheme, and answer the door without ever leaving your armchair. This book introduces you to Alexa, Siri, and every major technology competing to smarten your home and improve your life. You'll learn how to choose between them, how to optimize their function, and how to avoid the pitfalls that cause new adopters to wish they'd never let a computer into their home.

alexa drop in on a specific echo: Make: Special Internet der Dinge 2017 Make-Redaktion, 2016-11-28 Das Sonderheft des deutschsprachigen DIY-Magazins Make: zum Thema Internet der Dinge (Internet of Things - IoT) bietet einen leichten Einstieg. Die Praxisbeispiele zeigen, wie Sie verschiedene Geräte mit dem Internet verbinden und Daten weltweit empfangen und auswerten können oder wie sich aus der Ferne Module steuern lassen. In ausführlichen Grundlagenartikeln werden Sie mit den verschiedenen Funktechniken und Protokollen vertraut gemacht, erfahren wie mit DALI zu Hause das Licht kontrolliert wird und erproben am praktischen Beispiel MQTT und ZigBee mit Xbee. Mit Beacons können Sie kleine Leuchfeuer setzen und so unter anderem die Positionsbestimmung im Gebäuden optimieren. Die weiteren Beispiele erweitern Ihr Wissen und praktischen Fähigkeiten, in dem Sie sich eine eigene Amazon Echo mit einem Raspberry Pi nachbauen, Philips Hue-Lampen per Node-RED steuern, WLAN-Module mit Lua programmieren oder automatisch Familienfotos im digitalen Bilderrahmen mit Ihren Verwandten teilen. Die Redaktion der Zeitschrift Make: steht auch bei diesem Sonderheft für anspruchsvolle neue Artikel in der gewohnten übersichtlichen Aufmachung, die sicherstellt, dass die Projekte wie gezeigt nachvollzogen werden können und am Ende funktionieren. Learning by Doing steht bei Make: immer im Vordergrund.

alexa drop in on a specific echo: Reassessing the Nuremberg Military Tribunals Kim C. Priemel, Alexa Stiller, 2012-08-01 For decades the history of the US Military Tribunals at Nuremberg (NMT) has been eclipsed by the first Nuremberg trial—the International Military Tribunal or IMT. The dominant interpretation—neatly summarized in the ubiquitous formula of “Subsequent Trials”—ignores the unique historical and legal character of the NMT trials, which differed significantly from that of their predecessor. The NMT trials marked a decisive shift both in terms of analysis of the Third Reich and conceptualization of international criminal law. This volume is the first comprehensive examination of the NMT and brings together diverse perspectives from the fields of law, history, and political science, exploring the genesis, impact, and legacy of the twelve Military Tribunals held at Nuremberg between 1946 and 1949.
